This Year's Focus: Gene Therapy in Neuromuscular Disease and Hemophilia

Scientific Planning Committee

Hernan Gonorazky, MD CSCN
Diplomate (EMG)

CO-CHAIR

Assistant Professor of Neurology,
University of Toronto

Staff Physician and Neuromuscular
Program Coordinator,
The Hospital for Sick Children

Blair Seifert, BSP, (R)CSHP, Pharm.D.,
FCSHP

Clinical Pharmacy Specialist - Pediatrics,
Jim Pattison Children's Hospital,
Saskatchewan Health Authority

Roy Khalife, MD, FRCPC, MHPE

CO-CHAIR

Assistant Professor of Hematology,
University of Ottawa

Co-director of the Ottawa Regional
Adult Bleeding Disorders Program,
The Ottawa Hospital

Kay Decker, RN

Hemophilia Nurse Coordinator,
McMaster Children's Hospital,
Hamilton Health Sciences

Joined by a multidisciplinary faculty of gene therapy experts as presenters and panelists.

Learning Objectives

After attending the GT Summit, you will be able to:

- Provide insight on the fundamentals of gene therapy, current and future applications, and latest updates on efficacy and safety.
- Guide patients before, during and after gene therapy administration.
- Coordinate with a multidisciplinary team to construct a plan to successfully equip your centre to administer gene therapy, including follow-up and monitoring.
- Act as a champion and advocate for the implementation of gene therapy in your institution.

Who should attend?

Pediatric neurologists, hematologists, and allied health professionals implicated in gene therapy (nurses, pharmacists, social workers, occupational therapists, and physiotherapists).

Why attend the GT Summit?

- Explore what gene therapy can offer to your patients.
- Share and network with experts and colleagues from across Canada and abroad.
- Get answers to your questions about gene therapy.
- Find opportunities to collaborate on gene therapy best practices and champion the establishment of centres of excellence.

Attend the GT Summit in-person in Toronto or join us virtually online.
